

LuraDocument

LuraDocument JPM/PDF(/A) Exporter for EMC Captiva® QuickScan Pro

LuraDocument JPM/PDF(/A) QuickScan Pro Exporter is an add-on that seamlessly outputs scanned documents into high-quality, excellently compressed PDF, PDF/A and JPEG2000/Part6 (JPM) files during the capture process with QuickScan Pro (QSP). By integrating LuraDocument QSP Exporter, organizations achieve a rapid return on their investment through several productivity gains: File sizes are smaller, which greatly reduces storage costs and bandwidth requirements. End users become more productive by decreasing the time it takes to download and view documents. The introduction of PDF/A as an output option reduces organizations' long-term infrastructure management costs while guaranteeing future access to captured content.

Key Features:

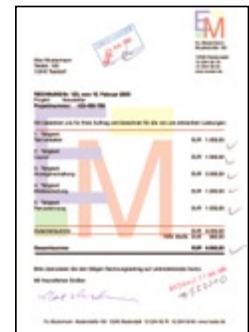

- Designed for EMC Captiva® QuickScan Pro
- Based on open standards PDF/A, JPEG2000 / Part6 and JBIG2
- Proven Mix Raster Content (MRC) Compression

Key Benefits:

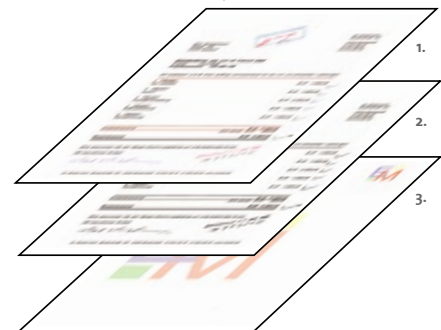

- Easily managed and integrated into fully automated QSP capture processes
- Provides reliable and safe non-proprietary solution for scanned documents
- Increases end user productivity through faster viewing and processing
- Greatly reduces storage and bandwidth requirements with smaller files and faster data transfer
- Allows for reliable, long-term storage of scanned documents

Technical Features:

- File Output Choices
 - JPEG2000 / Part6 (JPM file format)
 - Supports JBIG2 and Fax Group 4
 - Viewable within LuraTech's Internet Explorer Plug-in
 - Acrobat Portable Document Format (.PDF file format)
 - Supports JBIG2 and Fax Group 4
 - Viewable within Acrobat Reader V5 or higher
 - PDF/A Format (ISO Standard for long-term archiving of documents)
 - Compliant to ISO Standard 19005-1 and PDF/A1-b
 - Viewable within any PDF reader that supports PDF/A
- Seamless integration into EMC Captiva® QuickScan Pro
- Achieve up to 300:1 compression ratios on color scanned documents
- Achieve up to 4:1 compression ratios on black and white Fax Group 4 documents
- MRC 3 Layered Segmentation

Original Scanned Document

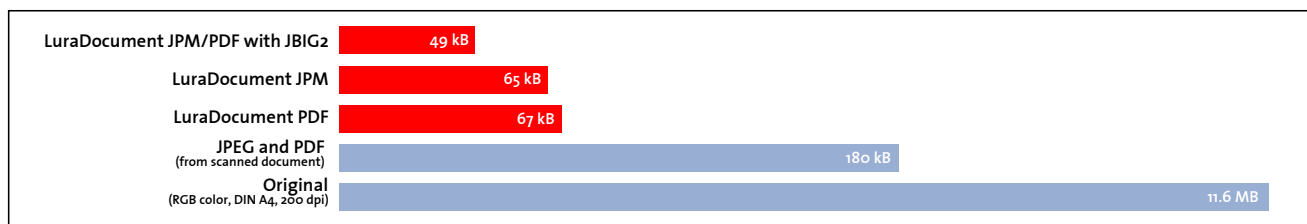

How it works:

- Segments into three compressed layers
1. color text elements
 2. exceptionally clear bitonal text
 3. color image elements

Outputs to JPM or PDF

Benchmark test: LuraDocument JPM/PDF compared to other conventional formats
